EDUCATION

The City University of New York, College of Staten Island

Bachelor of Science (BS) in Computer Science | *Concentration in Software Development*

May 2027

RELEVANT COURSEWORK

Data Structures & Algorithms | Data & Network Security | Analysis of Algorithms | Machine Learning | Computer Game Programming | Database Systems | Cybersecurity Fundamentals | Computer Architecture | Software Engineering | High-Performance Computing | Operating Systems

TECHNICAL PROJECTS

- Developed **The Wrath of Morrisworm 404**, a 2D top-down shooter built in **Unity (C#)** featuring enemy AI, sprite animation, collision-based combat mechanics, custom soundtrack integration, and voice acting.
- Built a full-stack restaurant management web application using **Python (Flask)**, **SQLite**, **HTML/CSS**, and **JavaScript** that included user authentication, dynamic menus, order management, and database-backed operations as part of a team software engineering project.
- Developed and maintain **The Tim Cinematic Universe**, a responsive multi-page portfolio using **HTML/CSS/JavaScript** to showcase creative projects, original writing, photography, ongoing blog content, and game-development work, including a dedicated **/pro** portfolio for recruiters.
- Developed **IndieSticks**, a React-based community platform for indie game developers to share projects, discover resources, and connect with creators across different experience levels.
- Built a React data dashboard using the Open Brewery DB API, implementing search, filtering, sorting, summary statistics, and dynamic detail pages with React Router.

TECHNICAL PROFICIENCIES

- Programming Languages:** C++, C#, Python, JavaScript, GDScript, SQL,
- Web Technologies and Frameworks:** React, Node.js, Discord.js, Flask, HTML, CSS, Vite
- Operating Systems:** Windows, macOS, Linux
- Tools & Platforms:** Git/GitHub, Microsoft Azure, Visual Studio Code, VMware, VirtualBox, Wireshark, Kali Linux, Microsoft Office, Adobe Photoshop, DaVinci Resolve, FL Studio, Audacity
- Game Engines:** Godot, Unity

SUPPORTING EXPERIENCE

Outback Steakhouse

January 2026 – Present

Server

- Provide attentive service in a fast-paced restaurant environment while managing multiple tables and maintaining accurate guest orders.
- Communicate with kitchen and front-of-house staff to ensure timely food delivery, accommodate guest requests, and resolve service concerns.

Applebee's Neighborhood Grill + Bar

November 2024 – January 2026

Supervisor

- Trained new kitchen employees on station procedures, food preparation, sanitation practices, and workplace expectations.
- Maintained an organized, clean, and fully stocked kitchen by monitoring station readiness, assigning tasks, and addressing operational needs during shifts.
- Upheld strict food safety and sanitation standards, adhering to company and health department regulations.

La Bella Marketplace

June 2022 – October 2024

Cashier

- Processed cash, credit/debit, and check transactions accurately using a point-of-sale system.
- Resolved customer concerns and coordinated with coworkers to maintain efficient front-end operations.

CERTIFICATIONS & TRAINING

- OSHA 30-Hour Construction Safety and Health July 2019
- Naloxone (NARCAN) Administration Training October 2019
- NYC Food Protection Certificate September 2025
- CodePath WEB102: Intermediate Web Development August 2026

ACTIVITIES / VOLUNTEER WORK

Computer Science Club, Secretary

September 2024 – May 2025

- Served as a secretary in the Computer Science Club at The College of Staten Island, where I maintained attendance records, drafted meeting notes, and coordinated with the president to ensure clear communication and smooth operations.

Video Game Development Club, Officer / Social Media / Project Manager

March 2025 – May 2025

- Served as an officer in the Video Game Development Club at The College of Staten Island, where I focused on social media, organizing events, and coordinating projects. I work to engage members and facilitate collaborative projects that bring creative ideas to life.
